5. PROPANE SAFETY INSPECTION INFORMATION

**Licensed Installer or Propane Supplier can fill out Section 5 and sign below.
At least one safety inspection must be filled out.**

A Safety inspection accompanying the installation of the qualifying appliance(s) must include one or more of the following 1) a leak test; 2) a pressure test if required by applicable laws, rules and regulations, and/or 3) a flow and lock up test on the regulator(s). The Safety inspection **must** be performed prior to the submission of any rebate application. The purpose of the Safety inspection is to support the OPC Rebate Program rules and requirements that a safety inspection did occur as required under the rebate program rules and regulations. Licensed contractors **can** perform safety inspections. If your installer is not licensed by the state of Ohio, then the Propane Safety Inspection **MUST** be performed by your propane retailer.
